**30+ GO-LIVES** per year

**TRAINING AND EDUCATION:**

Netlogistik offers training and education programs to ensure that you are well-equipped to manage and maintain the implemented solutions effectively.

**FIRST-TIER IMPLEMENTATION METHODOLOGY:**

Through a set of well-established guidelines, our ATOS (Analysis, Transformation, Operation, Support) methodology guarantees a successful implementation of supply chain software solutions.

**PROJECT MANAGEMENT OFFICE:**

A comprehensive and qualified project team will track consultants' registered hours and monthly audits and develop detailed periodic reviews to promote project efficiency and ensure the quality of deliverables.

### CLIENT SUPPORT FOR A QUICK ADAPTATION:

Included within our client support function is EVOLUTION, a Netlogistik program that catalyzes transitions in digital logistics projects. You have the option to acquire this program and let our implementation experts coach you during this change. This feature will help you improve process execution and efficiency, change resistance, increase stakeholder communication and ensure project continuity.

### HASSLE-FREE TECHNOLOGY INTEGRATION:

Netlogistik adds value to your supply chain processes by connecting your technology solutions. Blue Yonder has a middleware called Integrator that helps minimize risks and reduces connection time with other systems, including your hardware, voice picking technology, wireless network, automated equipment and ERP system.

### SAP INTEGRATION:

Netlogistik is a partner with proven experience integrating Blue Yonder solutions with SAP.
